Reservations now available for exclusive airport lounge:

"VIP WING" offers tasteful surroundings with a touch of Bavaria

For passengers at Munich Airport who want to start or end their journey with exclusive service on the ground, Munich Airport now has an attractive new facility offering every conceivable comfort and convenience: Situated in the southern wing of Terminal 1, the bright, spacious rooms in the new lounge have a total area of 1,200 square meters (13,000 square feet), and combine a cosmopolitan feel with Bavarian local color. Facilities available to guests include suites, conference and working rooms, wireless LAN, rest areas, showers, an extensive collection of international newspapers and magazines, a non-denominational prayer room and a separate smoking area.

At the official opening, Munich Airport CEO Dr Michael Kerkloh stressed the excellent functionality and modern technologies of the new VIP lounge, and had special praise for "the Bavarian local color combined with timeless elegance and cheerful decor". Kerkloh added that he is confident that, with the new VIP WING, FMG now has an exclusive luxury lounge that can meet the highest expectations at all times.

The lounge is open to paying guests regardless of their airline or booking class. Included in the VIP service package are complete baggage and customs clearance, passport control and a limousine transfer between the VIP lounge and the aircraft.

The reception area of the VIP lounge and the adjacent bistro are spaciouly laid out, and include a bar. Here guests are offered international cuisine as well as Bavarian specialties. A beer garden is also planned for the lounge.

Each of the suites has its own individual furnishings and decor: Linderhof Castle, for example, has a separate bathroom, Neuschwanstein Castle has a dining and conference table and Nymphenburg Castle has a separate sleeping area. The Schleissheim Castle suite is also suitable for conferences with up to 10 participants.

The VIP services can be booked effective immediately by telephone at +49(0)89/975-21333, by fax at +49 (0)89/975-21336 or by e-mail at vip@munich-airport.de. Reservations for a VIP-arrangement can be made up to three days before departure or arrival. More information on the new VIP lounge is also available at www.munich-airport.de.
